Vishal Katariya '01

LLM in Intellectual Property,
India

“ It is fascinating to learn how American legislation and jurisprudence has evolved over the years, and how it has shaped my understanding of the IP practice. By simply interacting with my fellow LLMs and JDs, we are able to enrich each others experiences and legal knowledge.”

Karla Bernardo '22

LLM in Intellectual Property, the Philippines

“ The IP Clinic allows an international student like me to practice before the USPTO with limited recognition. While still a student and without having taken the bar exam, I get to work with real clients from around the world. This allows me to gain professional work experience in the US while simultaneously earning my LLM. This is an invaluable experience for international students.”
